

WELCOME TO SAN ANTONIO

The Antitrust Statement of Associated Wire Rope Fabricators

Since a trade association is by nature a group of competitors with the capacity for collusive activities which can result in restraint of trade, it is important to emphasize the intent of A.W.R.F. to act in strict compliance with all state and federal antitrust laws.

The two principal antitrust laws which are particularly applicable to trade associations are:

- Sections One and Two of the Sherman Act, and,
- Section Five of the Federal Trade Commission Act.

These acts respectively prohibit contracts, combinations, and conspiracies in restraint of trade, monopolies and attempts to monopolize, unfair methods of competition, and unfair or deceptive business practices.

The most blatant illegal restraint of trade involves price-fixing. Price-fixing may involve competitors, or suppliers and their customers with respect to resale price. A.W.R.F. will not tolerate any discussion of prices at any association meetings; nor will it allow discussion of any agreements or arrangements which inferentially address price-fixing or any other form of antitrust behavior.

- 4:30 – 6:00 p.m. – Closing Reception – Garden Terrace

AWRF GENERAL MEETINGS POLICY

Adopted 1990. Revised 1992, 1995, 2000, and October 18, 2004.

I. PURPOSES

The primary purpose of conducting AWRF association general meetings is to promote interests common among companies manufacturing, fabricating or distributing products and services within the lifting, rigging, and load securement industries, and to disseminate technical information related to the conduct of businesses within those industries and allied industries.

The purpose of conducting AWRF association general meetings is primarily educational and secondarily social. The purpose of inviting guests to meetings is to stimulate new membership. All guests are to be treated as if they were members during the meeting. Guests pay all the same fees as members, and may not be invited a second time without approval of the Directors.

II. FREQUENCY, DURATION, AND LOCATION OF THE MEETINGS

Semi-annual meetings at varied locations, from two to four days duration, are conducted to serve the purposes of the Association, as required by stipulations of the Association By-Laws, and subject to the requirements of all applicable Federal, State and Local regulations and laws. From time to time, as authorized by the Directors, special events, such as exhibitions, demonstrations or recreational gatherings, conducted at special locations, may be added to the meeting. All special events must be open to all registered attendees.

III. TEN RULES GOVERNING CONDUCT OF GENERAL MEETINGS:

1. The Association's Code of Ethics governs personal/professional behavior at meetings.
2. The costs of the meeting are defrayed by registration fees, paid equally by all attendees. Each attendee pays a single registration fee in full, regardless of full or partial involvement. No fees are refunded except by prior notice and explanation. All guests and all attending spouses also pay the same fee in full. No partial, or prorated fees, are calculated or charged under any circumstances.
3. Fees for certain optional events designated by the Directors are paid separately from the meeting registration fee. Participation is limited to members who have already paid the full registration fee.
4. Presentations by speakers should be generic. Every possible effort should be exerted to avoid any advertising or promotional materials. Speakers should be familiar with the Association Antitrust Policy. If there are concerns regarding a presentation not being generic, it should be reviewed by either the Chief Association Executive (CAE) and/or the Chairperson of the Programs Committee prior to its delivery to the members. Additionally, presentations should be made available to the members either by way of a handout or electronic format. Prospective speakers must be alerted to these requirements from the onset.
5. Courtesy to speakers is mandatory
6. No "hospitality suites" are permitted. Marketing of industry products or services by AWRF members, guests or other attendees shall be conducted with discretion in order to avoid interference with organized convention activities. It is inappropriate to distribute promotional materials, actively solicit customers or conduct business discussions concerning price and/or delivery during meetings or other AWRF functions except at designated events.
7. No closed, clandestine or selective meetings, events, tours, exhibitions etc. will be tolerated or permitted during AWRF General Meetings. The locations, and specific opening and closing times of the AWRF general meetings will be firmly established and announced in advance to avoid debate. Traditionally, General Meetings begin at 5 pm on Sunday and close at 6-7 pm Wednesday. Individual business contacts are allowed, except during receptions and meetings.
8. Meetings are open only to registered member attendees, spouses, speakers and invited guests. Uninvited persons will be asked to either join, by paying the required dues and fees, or else depart.
9. Identification badges will be provided to all registered attendees to be worn at all functions.
10. Any individual person desiring to make a complaint or raise a question concerning these rules should address the matter in writing to the Association office or in person to the Chief Executive. The Directors will address questions or complaints on an individual basis if properly presented.

LT COL OLIVER L. NORTH, USMC (Ret.)

Oliver North is a combat decorated U.S. Marine, a #1 best-selling author, the founder of a small business, an inventor with three U.S. patents, a syndicated columnist, and the president of the National Rifle Association.

North was born in San Antonio, Texas, graduated from the U.S. Naval Academy in Annapolis, Maryland, and served 22 years as a Marine officer. His awards for service in combat include the Silver Star, the Bronze Star for valor and two Purple Hearts for wounds in action.

Assigned to the National Security Council staff in the Reagan administration, LtCol North was the United States government's counter-terrorism coordinator from 1983-1986. He was involved in planning the rescue of 804 medical students on the island of Grenada and played a major role in the daring capture of the terrorists who hijacked the cruise ship *Achille Lauro*. After helping plan the U.S. raid on Muammar Qaddafi's terror bases in Libya, North was targeted for assassination by Abu Nidal, the infamous terrorist killed in Baghdad in August, 2002. President Ronald Reagan described North as "an American hero."

Since 2001, he has been the host of "War Stories" – the award-winning military documentary series on Fox News Channel -- and has been embedded with more than 59 U.S. and allied combat units. North has authored fifteen books, each one of them have been national best sellers.

North is the founder of Freedom Alliance, a foundation providing college scholarships to the sons and daughters of U.S. military personnel killed in the line of duty. He claims his most important accomplishment is being "the husband of one, the father of four and the grandfather of seventeen."

Books will be for sale after the presentation for \$30. Lt. Col. Oliver North will be autographing copies purchased.

Tuesday, October 16th

Donald Pellow, P.E. - Founder - Pellow Engineering Services

Chair of the Associated Wire Rope Fabricators Technical Committee

- Native of Kansas City
- Graduated from the University of Kansas with B.S. in Engineering Physics
- Employed at Armco Steel – Union Wire Rope Division from 1966-1988
- Became Director of Technical Services at Union Wire Rope
- In 1988, Union Wire Rope Division was sold to Wire Rope Corp. in St. Joseph, MO, where Don stayed as Manager of Engineering Services until 1994
- In 1994, founded Pellow Engineering Services, Inc. which has three main directives:
 - Litigation Services as Forensic Engineer and Expert Witness in crane accidents and wire rope & sling failures
 - Engineering Consultant to Bob's Industrial Publications, which is the new owner of Bob's Rigging & Crane Handbooks & Rigging Reference Cards
 - Training of engineers, crane operators and riggers in construction and industrial settings
- Licensed and Registered Professional Engineer in Kansas and Missouri
- Member of National Society of Professional Engineers
- Member of Kansas City Chamber of Commerce and Hispanic Chamber of Commerce
- Member of Kansas City Plaza Rotary Club
- Chairman of Technical Committee of the Associated Wire Rope Fabricators Association
- Authored many articles and given many presentations on Crane

Accidents, Wire Rope and Sling Accidents and Engineering Design & Testing

Matthew Gardiner, P.E. - Principal Engineer - HAAG Engineering

Matthew R. Gardiner, P.E., is a Principal Engineer with the nation's oldest forensic engineering firm, Haag Engineering Co., in Sugar Land, Texas. He has been with Haag since 2005, and has investigated over 500 crane and rigging accidents in nearly every state during that time. He is a member of the ASME B30.5 subcommittee for the development and maintaining of our mobile crane standards, and is an alternate on the B30 main committee. Mr. Gardiner is a 1999 graduate of Ohio University with a Bachelor of Science in Civil Engineering, and is a licensed Professional Engineer in 24 states.

Kevin Kianka, P.E. - Professional Engineer - HAAG Engineering

Mr. Kianka, a licensed Professional Engineer in six states, serves as the Director of Operations for Haag 3D Solutions, a division of Haag Engineering Co. In this role, Mr. Kianka oversees the services in the southern US, along with office data processing, modeling and deliverable development of all Haag 3D Solutions projects. Specialty areas of service include forensic documentation, building as-built verification, 3D Model creation, 3D Clash Detection, and utility/component conflict identification. Mr. Kianka oversees H3DS' GIS group that specializes in servicing clients with Geographic Information Systems (GIS) needs, including providing on-site consulting and data processing services for several clients.

Mr. Kianka is a FAA licensed sUAS pilot and oversees the UAS (Unmanned Aerial Systems) services for Haag Engineering Co. He is the lead pilot for all forensic and incident scenes for Haag nationwide and is responsible for overseeing the deployment of UAS services both internally and for clients. Duties include establishing standards for maintenance and repair, pre-flight, flight and post-flight procedures and documentation requirements. In addition, Mr. Kianka has worked to establish protocols for data collection so that clients and pilots are aware of what is being requested so that the end product is capable of meeting the client's needs, whether it be a photograph, video, plan, 3D Model, or other.

Greg D'Elia - Director of Engineering - Slingmax Rigging Solutions

Gregory D'Elia is Director of Engineering for Slingmax Rigging Solutions. Prior to Slingmax, he had nine years of experience of engineering high performance ropes and strength members. He serves on the American Society of Mechanical Engineers B30.9 and B30.30 subcommittees for slings and ropes respectively. Greg is also the Chair of the Technical Operating Committee and the Roundsling Subcommittee for the Cordage Institute, and the chair of the Cordage and Cordage Slings Subcommittee for the AWRF Technical Committee. He holds a Bachelor of Science in Mechanical Engineering and a Master of Engineering Management from Penn State University.

Robert LaChapelle - Executive VP & Principal - Able Rigging

Robert LaChapelle currently holds the position of Executive Vice President and Principal of Able Rigging Contractors. He both manages and oversees field operations for all of Able's foremost projects and specializes in ultra hi rise rigging: including tower crane erection and recovery, external and internal climbing tower cranes, electrical and mechanical rigging and derrick work.

Robert joined Able Rigging Contractors as a Master Rigger in 1999, and prior to his return in 2003, he served as a Superintendent for Skanska working on their East River Repair and NYPA 500 projects.

Mr. LaChapelle has built a successful career in the construction rigging industry that began while working as a young man in his family's rigging business. Robert is a third generation rigger, became a second generation Master Rigger in 1994 and studied rigging and construction at Pace University.

Rene Vallant - Vice President, Athletic Director and Manager - pewag Racing Team

As a business professional and coach, I maintain a leading edge in science and industry knowledge in order to offer the highest quality of services to clients. I am responsible for every aspect of client health and performance, even while leading a highly skilled staff of coaches.

- Adjunct Professor:** Curriculum development for private academy
- Sport Advisory Board of the Austrian Federal Economic Chamber:** (2010 to 2015) Lobbyist
- Independent Sports Scientist:** (2005 to Present) Provide independent medical evaluation
- Vital Coach:** (2004 to Present)
- Sports Medicine Cooperative** with Dr. Krösselhuber in Lienz (2004-Present) and Dr. Bittighofer/Dr. Wallner (2003-Present)
- Director/Co-Owner:** www.Sport-Control.com Designed and developed the functionality provided by the Sport-Control web-based training management system

Nicholas Chase - pewag Racing Team

After 10 years Active Duty in the United States Air Force, Nicholas Chase decided to set out on a professional career in triathlon; both as an athlete and coach/business owner. As owner of TRIBAL Multi-Sport with over 5 years of professional racing and athlete development, he has an incredible grasp on what it truly takes excel with performance and overall health. Nick has competed in over 55 triathlons while traveling the world, earning podiums and top-placing among the best in the business. As a coach, Nick focuses on communication with each athlete, and balancing training stress with life stress. Finally, as an avid food lover, Nick has plenty of knowledge when it comes to food choices, which can help add value to any training program. While in the Military Nick managed the physical fitness program for over 500 Airmen and helped those who struggles to pass physical fitness testing. He loves what he does and will go above any beyond when it comes to helping athletes break through limitations that restrict performance. Nick has just officially joined the Pewag Racing team for 2018 and considers it one of his bigger accomplishments to date.

Golf Tournament

The Quarry Golf Club
444 E. Basse Road
San Antonio, Texas

Famous for supplying the cement for the State Capitol of Texas, the original rock quarry closed down in 1983 after nearly 100 years of operation. One tradition simply paved way for another, resulting in the unparalleled Quarry Golf Club Experience. The Quarry Golf Club opened in 1993 after an award-winning design by Keith Foster. Careful chiseling of stone gave birth to a course unmatched ever since.

Entertainment

Comedian Pat Hazell will entertain us at the Banquet in San Antonio. Pat will perform a smaller version of his acclaimed touring show:

THE WONDER BREAD YEARS

THE WONDER BREAD YEARS

A fresh and funny salute to Americana, The Wonder Bread Years starring Pat Hazell (former Seinfeld writer) is a fast-paced, hilarious production that gracefully walks the line between standup and theater.

Audiences across the country are enjoying a show that not only restores a much-needed sense of wonder, but leaves audiences laughing and savoring the past like never before. From sitting at the kids table to riding in the back of the Country Squire Wagon, The Wonder Bread Years is a comic bullseye for **Baby Boomers** everywhere.

The Tour

Positively Pearl Tour

The Pearl Brewery is a 23 acre compound and community that sits proudly on the banks of the Museum Reach of the San Antonio River. This uniquely diverse community restores and rejuvenates older buildings and, seemingly by magic, turns them into something else. The Historic Pearl Brewery is an excellent example of that magic. The Pearl began as a small brewery in 1883. The perfect combination of German families and an abundance of natural springs in San Antonio gave way to beer production. This was home to the production of Pearl Beer until 2001. Today, Pearl is a culinary and cultural destination offering a dynamic and evolving environment. It is home to The Culinary Institute of America, one of only four in the nation. Additionally, the variety of renown chef owned restaurants, novelty shops and Hotel Emma makes Pearl a historic gathering place for all. After a walking tour, you will enjoy lunch at the Boiler House which is a true piece of Texas history offering a beautiful fusion of past and present day charm and artfully prepared, gourmet Texas Hill Country fare. After lunch, you will have free time to explore on your own.

FEATURED SPEAKER GENERAL MEETING & P.I.E. CLEVELAND, OH

SALVATORE "SAL" AUGUSTINE GIUNTA

For his extraordinary gallantry, unrivalled courage and selfless leadership in action on October 25, 2007, Giunta was awarded the Medal of Honor by President Barack Obama in a White House ceremony on November 16, 2010. Staff Sgt. Giunta was the first living recipient of the Medal of Honor for service in Iraq or Afghanistan, the first living service member to be awarded the Medal of Honor since the Vietnam War and the eighth service member to receive the nation's highest military decoration for valor in Iraq and Afghanistan. He would later choose to bequeath his medal to his brigade, stating that it doesn't belong to him alone, but to all the men and women who served alongside him. His other military decorations include the Bronze Star, Purple Heart, Army Commendation Medal w/oak leaf cluster, Army Achievement Medal, National Defense Service Medal, two Army Good Conduct Medals and the Global War on Terrorism Service Medal to name a few. He retired from the Army in June 2011 and is the author of *Living with Honor* (2012). He currently resides in Colorado with his wife Jennifer Giunta and their children.
